ABOUT US

Company Information

At QT Global Software LTD, we turn your vision into cutting-edge software solutions designed specifically for your needs. Our dedicated team strives to deliver innovative technology that drives your success and cultivates long-lasting partnerships. Let's shape the future together.

Mission

To empower businesses through innovative and secure software solutions that drive growth, enhance productivity, and inspire change. Through a culture built on collaboration and excellence, we are committed to surpassing expectations and fostering the success of our clients and team.

Vision

To be the leading force in digital transformation, where technology and people unite to shape the future. We strive to create impactful solutions that enrich lives, champion excellence, and position our employees and clients at the forefront of global innovation.

OUR VALUES

Customer Focus

We prioritize our clients' needs and work collaboratively to achieve their goals.

Innovation

We foster creativity and a forward-looking approach, encouraging our team to tackle challenges with passion and out-of-the-box thinking.

Integrity

We believe in honesty and transparency. By upholding the highest ethical standards, we build lasting trust through a culture of accountability and respect.

Excellence

We pursue excellence not just in our solutions but in the way we work together. Every achievement is driven by our shared dedication to continuous improvement and team success.

Quality

Quality is our commitment. We strive to deliver products and services that exceed expectations while supporting the well-being, growth, and success of both our clients and employees.

Annick Burabyo
Human Resource Manager

OUR PRODUCTS

RMS

A software solution that helps organizations plan, allocate, and track resources and tasks throughout the lifecycle of an institution.

EMS

EMS is a customizable solution tailored to meet unique user needs, supporting the accreditation of participants. Designed for events with 200 to over 2,000 attendees, it provides a centralised, bespoke system for both event planners and attendees.

QTCONNECT

QTConnect is a highly secure, end-to-end messenger application available on both mobile devices and desktop. It offers end-to-end encryption, ensuring that all messages, voice calls, and shared media are securely encrypted and only accessible to the sender and intended recipient, providing a high level of privacy.

VMS

VMS is a web and mobile-based application designed to help institutions and companies track, monitor, and manage visitors and employees entering their premises using cutting-edge technology. The system offers a comprehensive solution for both visitors and staff monitoring.

OUR SERVICES

FINANCE SECTOR

E-CORRESPONDENCE SYSTEM

The E-Correspondence System allows business stakeholders to access company services efficiently through an online portal. Users can submit requests, track applications, and receive timely responses without the need for physical interaction with company staff.

HEALTH SECTOR

EMR

The Electronic Medical Record (EMR) system leverages advanced technology and user-centered design to enhance efficiency, productivity, and data accuracy in healthcare facilities. It ensures better compliance and reporting while providing seamless access to patient information and improving overall care delivery.

AGRICULTURE SECTOR

ICSS

The Agricultural Inspection and Certification Support System is a comprehensive platform integrating services for agricultural inspection, certification, and tracking. Used by certifying authorities, seed growers, traders, and other stakeholders. It streamlines registration, variety release, inspection, and certification processes. The platform enables stakeholders to verify seed authenticity and access detailed information.

GOVERNANCE SECTOR

CRVS

The Civil Registration and Vital Statistics framework records all essential civil events. It ensures accurate and comprehensive documentation for vital statistical purposes and legal documentation. All services are accessible via Irembo portal.

JUSTICE SECTOR

IPSS

The system is designed to support internal prosecution by generating reports and assisting employees in their daily activities across departments and branches.
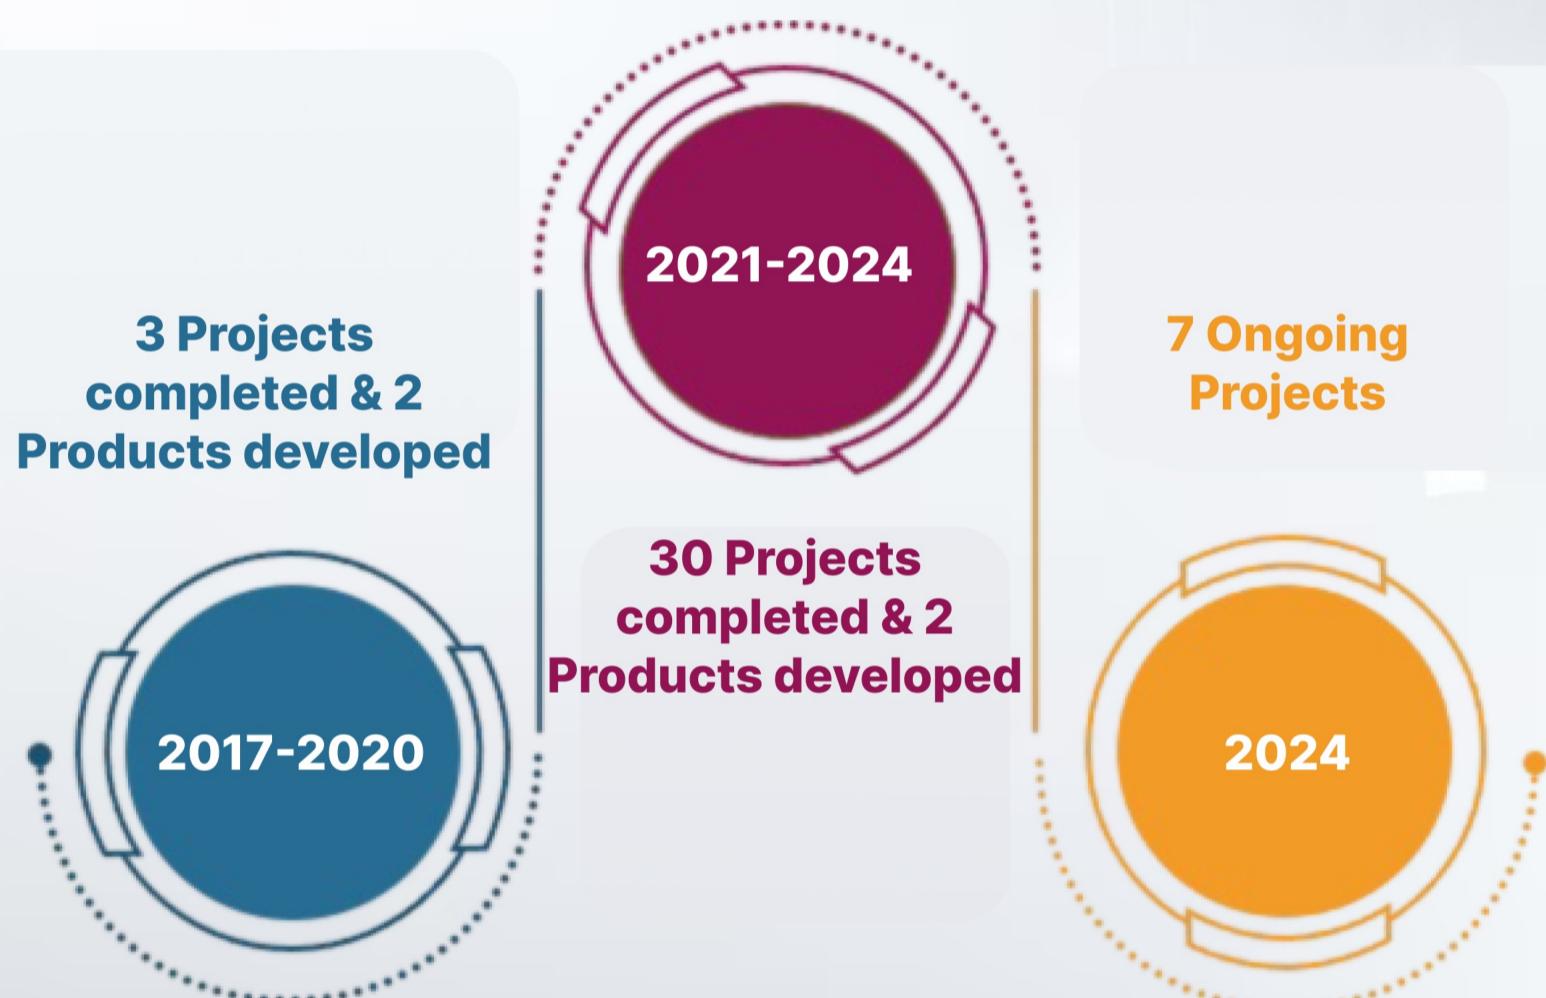

CYBER SECURITY

VULNERABILITY ASSESSMENT AND PENETRATION

QT Global Software has a dedicated team to conduct comprehensive security assessments of systems, applications (web, desktop, cloud, and mobile), and network infrastructure to identify vulnerabilities and potential entry points for cyberattacks. Through rigorous testing methodologies in static/manual and dynamic ways, we simulate real-world attack scenarios to uncover security loopholes and various weaknesses and provide actionable security countermeasures and remediations to fortify the cyber defense through a defense-in-depth approach.

SOLUTION INTEGRATION & MAINTENANCE

We closely monitor all the systems to ensure optimal performance.

ACHIEVEMENTS & MILESTONES

3 Projects completed & 2 Products developed

2021-2024

7 Ongoing Projects

30 Projects completed & 2 Products developed

2017-2020
